We are Safe Contractor Approved License Number N00 170850

“CCS FM Really did half our cleaning annual costs”

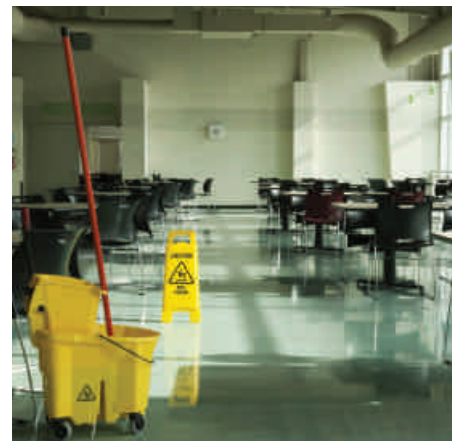

'What Our Customer Say'

Mr Charlie Allan (Director) Interlink Carriers

We asked CCS to conduct a tendering exercise for our office & factory cleaning, CCS delivered a cost for cleaning our accommodations 3 days per week instead of the present 7 Days, we tried the service over a months period and found that the building was in good condition, if not better with the reduced cleaning times, we therefore made a huge saving on our cleaning costs, In addition we also made savings with fuel costs as the cleaners were not in the buildings 7 days per week with every light burning each and every night.

I would recommend CCS as a good Support Supplier who takes time to look at all avenues in order to make necessary savings for companies in today's Economical Environment.
